Software Project Proposal

Title:

1. Introduction

Under this section to write the background of the organization/sector.....

Or you may discuss about necessity of the project....

2. Problem Statement

You can discuss here the problems you have been identified by the team during preliminary analysis.....

3. Objective of the project

3.1 General

The general objective of this project....

3.2 Specific objective

The specific objective...

4. Scope

The scope of the project....

5. Methodology

5.1 Data Gathering and Analysis Methodology

The way your team gather data....

5.2 System analysis, Requirements Specification and Design

Mention the methodology you use to analysis, define requirements and Design....

5.3 Software Development Approach

Choose software development approach and discuss about it. (Why you choose the approach in reference to the project?)

5.4 Project requirements

5.4.1 Software Requirements

Mention the software's which is needed to develop this project...?

5.4.2 Hardware requirements

List the hardware requirements

6. Significance of the project

Discuss the output of the project (benefit of the project after it is implemented)

7. Effort and Duration of the Project

Discuss here the manpower/Effort and the duration it takes to develop the project.....

8. Schedule and Milestone

Show the schedule and the tasks accordingly.....

Reference

(Use IEEE reference format)
